## Quick Start Guide

### Model: LMP132

Your LMP132 sample is loaded with sample MP3' and videos. Here are a few operational procedures to make your experience with the player a pleasant one.

- 1.) Always start and turn off the player by pushing and holding the play/stop button located at the bottom of the screen.
- 2.) Main screen lists icons from left to right
  - a.) Music Player
  - b.) Video Player
  - c.) FM Radio
  - d.) JPEG Picture Browser
  - e.) E-Book reader
  - f.) Voice Recorder
  - g.) Navigation – Explore Device
  - h.) Games
  - i.) Settings

\* Navigate by using the arrow keys on the keypad – Once selection is made hit the “M” key
- 3.) To adjust volume hit the volume button once and the arrow key up for increased volume and down for decreased volume. Once desired level is selected hit the volume key once again.

\*NOTE – Driver is only needed for Windows 98 or 95
